- **Databases :** MySQL,MongoDB,SQL
- **Web Technologies :** HTML,CSS,JavaScript,Node.js,Express.js,React.js,Typescript,GraphQL,Redux
- **Tools :** Git,GitHub,Postman

PROFESSIONAL EXPERIENCE

Intern | Scalefull Technologies LLP   **FEB 2024 – Present**

Gained hands on experience in basic and advance concept of MERN stack development to complete a project in web development.

- Worked on building a healthcare appointment portal to manage appointments between doctors and patient.
    - Engineered RESTful APIs using Node.js & Express.js, integrated with MongoDB for robust data management.
    - Implemented state management across the application using React.js to enhance user experience.

- Designed and implemented a scalable InnoBytes Blog API enabling CRUD operations for task lifecycle management.
    - Implemented efficient blog functionalities through a RESTful API.
    - Secured API endpoints with JWT token-based authentication to ensure data integrity and user access control using express.js with react.js.
    - Established centralized error handling mechanisms for consistent error reporting and API reliability.

- Developed an online comic book store aimed at providing a platform for comic enthusiast.
    - The platform allows users to browse, purchase, and review a wide range of comic books.
    - The store was built using a full stack of technologies, including HTML, CSS, JavaScript, PHP, and MySQL.
